your international directory of hospitals

Welcome

Welcome to your international directory of hospitals listing those hospitals worldwide with which we have a direct settlement agreement for in-patient care.

This directory forms part of the terms of your policy.

Wherever you are in the world, your directory will help you and your medical practitioner to select a hospital should you need in-patient or daycare patient treatment. Please keep it in a convenient place in case you need it.

1 introduction

What your directory tells you

Your international directory of hospitals lists all the hospitals worldwide with which AXA has what is known as a direct settlement agreement for in-patient care. This means that, if you receive in-patient treatment at any of the named hospitals, we will pay your eligible bills direct to them, providing that we have agreed your treatment in advance. It means you won't have the worry of having to pay in advance for your in-patient care and then claiming reimbursement from us.

This does not mean that there are no costs that you will have to pay e.g. telephone calls, newspapers. Please refer to your handbook for details. If you receive treatment in the United Arab Emirates, Saudi Arabia, Bahrain, Oman, Kuwait or UK it is important to check the directory to ensure the treatment facility is covered under your policy.

How to use your directory

If and when your medical practitioner advises that you need hospital treatment either as an in-patient or daycare patient, we recommend you discuss your choice of hospital from your directory with them.

You'll find the directory entries are arranged alphabetically by region so you can find the hospitals nearest to you quickly and easily.

Help us to help you

We see it as our job to agree favourable fees with the medical providers we work with, so we can help keep your premiums as low as possible.

Even so, there are a number of ways you can help us provide you with even better value. When using this directory you may want to:

- ask your selected hospital to treat you at times that do not attract surcharges
- talk to your practitioner about the possibility of receiving surgical treatment as a daycare patient, rather than as an in-patient. More and more medical procedures allow treatment to be undertaken in this way, enabling you to recuperate in the comfort of your own home.

How to arrange direct settlement

When you know for sure that you need hospital treatment, you must let us know before your treatment starts. We will then have time to confirm that you are covered for your proposed treatment and to arrange for direct settlement with the hospital. Whichever hospital you are due to go into, please follow the steps below as soon as you know you need treatment.

If you have any questions about using your directory or simply have any queries about your membership, our Health Service Team is ready to help with advice. You can call our Health Service Team on: (852) 2867 8680 which is also shown on the reverse of your membership card.

Calls may be recorded in case of subsequent query.

Step 1. You must contact us to obtain authorisation for your proposed treatment.

Step 2. You must show your membership card to the hospital. If you have any problems then contact our Health Service Team using the number on the reverse of your membership card. If you have enough time, you must request pre-authorisation ideally 5 days prior to the commencement of treatment unless you have been admitted as an emergency case.

Step 3. Confirm that the hospital has received our written authorisation.

Step 4. Ensure that the hospital is aware that you are a current AXA member. You will need to show your membership card to do this. Please remind the hospital to invoice all your treatment at our negotiated rates.

Step 5. You must complete a claim form. If you do not have a claim form, please let us know and we will send you one. You must make sure it is filled in, signed by yourself and the medical practitioner treating you and sent back to us as quickly as possible, giving us all the information we request. Please note that we will only consider claims made within 90 days of the treatment being given.

Step 6. Once we have confirmed, in writing, that your treatment is eligible, we will notify the hospital and/or you. We will also confirm the amount we will pay for your treatment.

Step 7. When you are admitted to hospital, please take your original claim form and your membership card and

remind the hospital of your entitlement to our preferential rates.

Step 8. Once you are discharged, the hospital will send us the bill for your treatment. If you receive any bills by mistake, please forward them to us as soon as possible.

If you do not follow the steps shown and have not obtained our authorisation for treatment well in advance of your admission, you may be asked by the hospital to provide a deposit and to pay for your treatment yourself. Please ensure you have paid for services that are not covered by your policy before you have the hospital (e.g. newspapers, telephone calls etc).

Customer service

If you have any questions about using your directory or simply have any queries about your membership, our Health Service Team is ready to help with advice. You can call our Health Service Team on the number shown on the reverse of your membership card.

What if I go into a hospital not listed in the international section of the directory

If you are due to go into a hospital that is not listed in the international section of your directory, we may still be able to settle your bills direct. In this instance, you should still follow the steps above and we will then discuss the matter with the hospital concerned. We cannot guarantee that the hospital you have chosen will accept such an arrangement.

What happens with out-patient treatment

We do not provide generally direct settlement for out-patient treatment. When you receive outpatient treatment, you must pay for this yourself and submit to us original receipted invoices together with a fully completed claim form signed by yourself and the medical practitioner giving the treatment.

Any exceptions

There are some circumstances where we will settle your out-patient costs direct with the hospital.

For instance, we may provide direct settlement for long courses of chemotherapy, radiotherapy or expensive scans and tests. If you think your treatment falls into these categories, please call our Health Service Team for advice well in advance of your treatment date.

Please note however that some hospitals in the directory may not accept direct settlement for the treatments outlined above. In these cases and depending on your policy, they may ask you to pay an excess charge for the specified treatments. Again, our Health Service Team will be able to advise you on this.

Third party local knowledge

In some parts of the world, such as the Caribbean, Central America, North America, South America, Italy, and South Africa, we operate in association with local companies that offer access to and direct settlement with their own local network of hospitals. Doing this enables our associates to provide you with a larger choice of hospitals within your area of cover. Using their expert local knowledge our associates will help to locate appropriate hospitals in your region, as well as to help us confirm your cover and arrange for direct settlement to take place. Each associate also provides an English-speaking telephone line for members so if you need to discuss your admission then help is at hand. **You must contact us in the first instance and we will contact our associates on your behalf.**

Standards of care

Please remember, as your insurer, we have no control over the standards or facilities provided by the hospitals contained in this directory. We simply agree to make direct settlement with the named hospitals, so their inclusion should not be interpreted as an indication of the level of services they provide.

Any questions

If you're unclear about anything in this directory or have any questions about your cover, we are here to help.

Call our Health Service Team on the number shown on the reverse of your membership card.

Please note:

- (1) Where an 'emergency number' is shown on your card it should not be used for general inquiries such as those shown above.
- (2) The content of this directory are for illustration purposes only and are updated from time to time. To be sure that you are using the most up-to-date and correct version, please contact us before making any decision about your cover. An electronic version of this document is also available on our website for download. We cannot be held responsible for the use of any such electronic material nor bound by the terms shown as material may be damaged by electronic transfer or subjected to unauthorised amendment. Any person or persons found tampering with or misusing this material either in its original form or any other may face prosecution.

2 international directory of hospitals

Caribbean

If you require treatment in the Caribbean our associate can help you locate local providers and to settle accounts directly with them. For in-patient, daycare patient or major out-patient treatment we recommend you contact us prior to receiving treatment. If you are unable to make contact before admission we may not be able to guarantee a direct settlement so you may have to pay a deposit to the hospital or pay your bill in full before receiving treatment or upon leaving the hospital.

For reference purposes we consider the following to be in the Caribbean:

Antigua, Bahamas, Barbados, Barbuda, Bermuda, Dominica, Dominican Republic, Grand Cayman, Grenada, Guadeloupe, Haiti, Jamaica, Martinique, Puerto Rico, St. Lucia, St. Vincent, Trinidad and Tobago.

Please call our Health Service Team on the number shown on the reverse of your membership card.

Central America

If you require treatment in Central America our associate can help you locate local providers and to settle accounts directly with them. For in-patient, daycare patient or major out-patient treatment we recommend you contact us prior to receiving treatment. If you are unable to make contact before admission we may not be able to guarantee a direct settlement so you may have to pay a deposit to the hospital or pay your bill in full before receiving treatment or upon leaving the hospital.

For reference purposes we consider the following to be in Central America:
Belize, Costa Rica, El Salvador, Guatemala, Honduras, Mexico, Nicaragua and Panama.

Please call our Health Service Team on the number shown on the reverse of your membership card.

South America

If you require treatment in South America our associate can help you locate local providers and to settle accounts directly with them. For in-patient, daycare patient or major out-patient treatment we recommend you contact us prior to receiving treatment. If you are unable to make contact before admission we may not be able to guarantee a direct settlement so you may have to pay a deposit to the hospital or pay your bill in full before receiving treatment or upon leaving the hospital.

For reference purposes we consider the following to be in South America:

Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, French Guiana, Guyana, Paraguay, Peru, Surinam, Uruguay and Venezuela.

Please call our Health Service Team on the number shown on the reverse of your membership card.

North America

United States of America

If you require treatment in United States of America our associate can help you locate local providers and to settle accounts directly with them. For in-patient, daycare patient or major out-patient treatment we recommend you contact us prior to receiving treatment. If you are unable to make contact before admission we may not be able to guarantee a direct settlement so you may have to pay a deposit to the hospital or pay your bill in full before receiving treatment or upon leaving the hospital.

Please call our Health Service Team on the number shown on the reverse of your membership card.

Canada

If you require treatment in Canada our associate can help you locate local providers and to settle accounts directly with them. For in-patient, daycare patient or major out-patient treatment we recommend you contact us prior to receiving treatment. If you are unable to make contact before admission we may not be able to guarantee a direct settlement so you may have to pay a deposit to the hospital, or pay your bill in full before receiving treatment or leaving the hospital.

Please call our Health Service Team on the number shown on the reverse of your membership card.

Africa

Algeria, Angola, Benin, Botswana, Burkina Faso, Cameroon, Central Africa Republic, Comoros, Congo DRC, Cote d'Ivoire, Djibouti, Egypt, Equatorial Guinea, Eritrea, Ethiopia, Gabon, Ghana, Guinea, Guinea-Bissau, Kenya, Lesotho, Liberia, Libya, Madagascar, Malawi, Mali, Mauritania, Mauritius, Morocco, Mozambique, Namibia, Niger, Nigeria, Reunion, Senegal, Seychelles, South Africa, Sub Saharan Africa, Sudan, Swaziland, Tanzania, The Gambia, Tunisia, Uganda, Zambia, Zimbabwe

AFRICA

If you require treatment in any of the above countries our associate can help you locate local providers and to settle accounts directly with them. For planned in-patient or daycare patient treatment you must contact us prior to receiving treatment.

If you are unable to make contact before admission we may not be able to guarantee a direct settlement so you may have to pay a deposit to the hospital or pay your bill in full before receiving treatment or upon leaving the hospital.

Please call our Health Service Team on the number shown on the reverse of your membership card.

GREECE

If you require treatment in Greece our associate can help you locate local providers and to settle accounts directly with them. For planned in-patient, daycare patient or major out-patient treatment you must contact us prior to receiving treatment.

If you are unable to make contact before admission we may not be able to guarantee a direct settlement so you may have to pay a deposit to the hospital or pay your bill in full before receiving treatment or upon leaving the hospital.

Please call our Health Service Team on the number shown on the reverse of your membership card.

3. the UK directory of hospitals

The following sections cover information about our UK network of hospitals only.

A national network of selected hospitals

As an AXA customer, you have access to a national network of hospitals, daycare patient units, scanning centres and other private healthcare facilities. These have been selected by our team of doctors, nurses and other medical professionals following a comprehensive assessment of their quality, value and range of services. All of them are listed in our directory of hospitals.

Oral surgery

If you require an oral surgical procedure, then we will provide benefit for those oral surgical procedures as set out in your membership handbook, when your dentist refers you directly to a facility indicated by the symbol **OS** in our directory of hospitals. Please visit our website: www.axapphealthcare.co.uk/hospitals for further information and contact our customer service team before treatment.

Cataract Surgery

If you require an eye operation involving cataract surgery, then we will provide benefit when your general practitioner refers you directly to one of the facilities indicated by the symbol **CS** in our directory of hospitals.

As we increase the number of these arrangements across the country we will provide updated information on our website. Please visit our website: www.axapphealthcare.co.uk/hospitals for further information and contact our customer service team before treatment.

Our quality assessment and improvement programme

Our initial assessment covers most aspects of the hospital's services. We only select hospitals and other facilities for inclusion in our network if they meet our strict quality criteria. This is only the beginning, however, and once accepted, hospitals must then undertake a programme of continuous quality improvement to ensure that their services continue to meet our required standards, in light of advances in medical care. In turn, we are committed to supporting the hospitals included in our network, encouraging them to invest in new facilities and services – to our mutual long-term benefit.

We regularly monitor their performance to assess their quality of care, which is why your feedback is particularly important.

If you should need to use a facility, please complete your hospital's patient satisfaction survey form and return it to them.

Standards for specialised services

We also work closely with network hospitals that provide certain specialised care services such as cancer, cardiac revascularisation, critical care, paediatrics and psychiatric care. National guidelines for these have been established in conjunction with appropriate professional authorities and organisations.

The benefits of our network hospitals

Being treated in advanced medical facilities in a supportive, professional environment can play an important role in helping patients to recover. The hospitals included in our directory of hospitals will endeavour to make your stay as pleasant and comfortable as possible. You can usually have your own private room with en-suite bathroom, television and telephone. You will be given a choice of dishes for each course at mealtimes and your visitors may, within reason, come and go as they wish.

Be sure to call us first

To check whether you are covered, please call us before you start treatment. We will then be able to authorise your claim in advance – as described in the section 'Receiving treatment and making a claim' in your membership handbook.

There may be rare occasions when we suspend the use of a network hospital or another facility listed in our directory of hospitals to protect the interest of our members. Should this occur, we will indicate the suspension on our website: www.axapphealthcare.co.uk/hospitals.

Daycare patient treatment

Advances in medical care mean that many operations are now undertaken on a daycare patient basis. This is in keeping with good clinical practice. Please note that you may be cared for in an open day ward (rather than a single room) while you recover from an anaesthetic to enable nursing staff to monitor your progress more effectively. Most hospitals now offer daycare patient treatment and we have included a number of purpose-built daycare patient units in the directory of hospitals.

Please check the directory of hospitals

The map on page 33 shows the United Kingdom divided into eleven areas. This is then followed by a list of the hospitals, scanning centres and other facilities with one or more symbols shown against the name of each facility listed. Each entry shows the medical service available, arranged alphabetically by town and ordered in reference to the eleven areas shown on the map. If you have any questions, please call customer service team. For full details of the facilities and the range of services provided by the hospitals, scanning centres and other facilities listed in the directory of hospitals (and for information on medical specialists we recognise for benefit) please visit our website: www.axapphealthcare.co.uk/hospitals or contact customer service team.

Key to symbols

OS Oral surgery arrangement in place

CS Cataract surgery arrangement in place

A triangle (Δ) indicates an NHS hospital that does not have dedicated private patient facilities. (We will recognise an NHS bed nominated as a private bed but in such cases the level of accommodation may be the same as standard NHS accommodation.)

Scanning centres – these centres provide:

M MRI (magnetic resonance imaging)

C CT (computerised tomography)

P PET (positron emission tomography)

These are usually carried out on an out-patient basis. Only the centres listed can be used for out-patient scanning.

G General hospitals – acute medical and surgical hospitals and daycare patient units which are recommended by AXA PPP healthcare following our selection process and where you will receive a full refund for hospital treatment.

Ps Psychiatric hospitals – hospitals that specialise in the treatment of psychiatric illnesses.

R Rehabilitation units – units that provide specialist rehabilitation services.
